DANIEL'S DILEMMA.

How Ho Proposed to Prisellia Wynkoop.

"Wot ye goin' t' do now, Daidel?" Sam Norton usked. He leaned forward as he spoke and peered up into the other's face with little, twink-

to lime, in spliteful spurts upon the sodden leaves through which their horses made their way down the long hill road. Firmer Wilson was not used to driving in a covered carriage, nor to sitting by bimself behind closed doors while some one else held the relns, but it was considered n proper mark of respect to Sarah and the pumpkin pic that bad been sent in. While he munched he runfor the funeral; Sam Norton had | innted. told him so, and had further hluted | that it would be but decent to invite the speaker to a sent beside him. "Ye know me 'n' her was connected

by marriago," was his plea. The principal mourner had consented, although he lid not like Sam Norton; he thought he was spiteful. This was the first speech Sam had made since the hearse and its following turned away from the country cemetery, and it did not serve to lighten the gloom in which the bereaved man was plunged.

"I do' know," he said plully, shaking his head covered with an unusual best hat; "seems if I'm all lost 'thout Sarnh Ann." "She kep' house fer ye n number

"Twenty-five, come Chris'mus. I ahr't never known wot 'twas t' be alone before sence ma died."

Daniel was goaded by It luto an nssmaption of confidence that he was far from feeling: "I cale late t' hire," he said, coldly. "Of course I know no one can't do like a man's own sister, an' I s'pose it'll cost like John. But I've got money 'nuif. Tain't that."

'Land alive," expostulated Sam, grinning afresh, "ef ye aln't green! D'ye s'pose any nice woman 'u'd come t' do fer ye, a bachelor livin' nll alone? I sh'd think Sarah Ann'd remarked on that before she passed

"Well, I'm diff'runt," with a couplacency that was maddening to the unfortimate man beside him. "I niu't got a farm t' run. I kin board. 'n' look ufter th' store duytimes. That's all right. "Ye'd better be gittin' about yer courtin', whoever it is," he eniled back, learing from the carriage

She did not wish him to marry, and he was dependent upon her. Perhaps the disappointment embittered him; at any rate, he lind long been content with Iling, inquisitive eyes.

It was a dull and hopeless from most of his kind, and bad no ber night. A heavy grny sky hung low above them. Ruin fell, from time had put what he mentally stigmafrom most of his kind, and bad no tized as that "blamed idee" into his head, he considered with sudden pleasure the possibility of winning Priscilla for something more than honsekeeper or general manager. Eight o'clock struck, and nine and

In fact, he dared not think of mything else save the task purpose might falter before the dim impression haunting him throughout that he was a fool.

He dressed himself carefully, after an early supper, and unrehed out of the door and down the road. Priscilla Wynkoop's little, unpainted cottage stood close to the highway. WHAT A PRIEND WE HAVE IN the iet of Columbia would be pricisely

[C. AHBOTT, IN ROCKPORT JOURNAL,]

[As sung by n Demoratic choir.] What a friend we have in Grover. All our kicks and cuffs to bear; What a privilege to give him Of our praise the largest share.
Oh, what peace we've had to forfeit.
Oh, what needless pain we bear,
All because we do not give him
Everything we had to spare.

Are we weak and full of blunders, Cumbered with a load of sin; we put our trust in Grover, Ite will surely "take us in." Do the Rads despise, forsake us. Let's hang on with grim despair,

Let us give to glorious Groven(?)
Everything we have to spare. Have we trials and temptations?

Is there trouble everywhere? Let's go over 10 Hawaii, We can find a so recethere. If for dellar wheat they give us Half they promised, fitty cents, We should never be discouraged, it may learn us better sense.

if our friends despise, forsake us, And have made of us a dupe, We can live on our "tin roosters," And a plate of "our free soup, Are we tired and heavy ladened With our load of "Wilson bill," Never mind, we'll be rewarded,

If we don't old Grover will. If they stop our pensions for us, They but do it as a joke; We should never ask a question, Leave it all to dailing "lioke," Let us stick to the party. (Though there are no reasons why)

Let's be Democrats or die. Then let us be up and doing, With a heart for any late; Still a thieving, still undoing. Learn to labor and to wait, Wait till Grover takes the country, The whole compoodle, everything-Then old "Uncle Sam" we'll bury, And we'll crown our Grover king.

The District of Columbia Appropriations bill was under discussion. The impression prevails among the taxpayers of Washington that as some of the municipal expenditures are for the benefit of the country at large, the Federal Government should contribute to defray them. savs: "Juries are the same everywhere in Kentucky. Referring to the recent sentences here of two years for murder and three years for stealing, the Winehester Sun says that at the last term of the Circuit Court a white man, who had shot a boy with intent to kill, and another who had waylaid landed in jail with several ounces of bird shot in his anatomy, was sent to

the penitentiary for two years." This is a striking contrast, and exhibits in an instructive way the jus-

tice infletied by law, Nor are these instances rare: they an be matched in every quarter of the State. At a recent term of the Court in Louisville a negro was senteneed to prison for snatching n pocketbook. Yet last week Norton, who, in a drunken fit of anger, had killed a man, was let off with one year in jail and a fine of \$1,000

Injustice is bad enough when it is he act of one man inflected on anoth-

It is worse still when, in violation of law, it is inflicted by a mob.

But all this is as nothing compared to the injustice which the law inflicts with all due solemnity and formality. It is not the work of the juries. The uries are selected from the people and fairly represent each community, When juries fail pesistently to do justice, when their verdicts exhibit such contrasts as these to which we have referred, we must admit that public judgement is warped and the public

conscience is hardened. The situation in Kentucky is more serious than one imagines for the eause of the failure of justice lies leeper than we are ready to admit. Juries are tolerant of crime because the people are tolerant. Judges are lenient because the people are indifterent. Prosecutions are inaffective because public opinion is afflicted with sentimentalism and looks on the criminal as an unfortunate victim of eireumstances rather than a respon-

sible being. And so the awful erime of murder is not adequately and swiftly panished, while we "even up" things by subjecting to excessive punishment

THOUGHT IT WAS A PIANO .- Oue day last week while Miss Lula E. Wak r was busily e-ganed with the type writer in the office of her employers, Mesers. Taylor & McHenry, a tall and sturdy representative of the yeomanry stalked in and with his month open at an angle of about 45 degrees watched the flying fingers play over the keys. "At last he managed to say: "Purty good, aint it?" "Yes," Miss Walker replied. "it is a good machine. We just recently bought it and are perfectly delighted with it," and her fingers flew faster than ever, and the month of the yeoman flew wider than ever. A PLAIN CASE.—Rumor had it that

a certain party who had the reputation of running a blind tiger several weeks immediately preceding Circuit Court, and who had sold out (?) just before the sitting of the Grand Jury, was about opening up again in a room which he was known to have rented. He had received several suspicious looking boxes on Saturday night's Owensboro Stage, and on Sunday the dusky son of Ham who had helped do the unloading on Saturday night, contrived to steal into the loft over the back room of the concern, and somehow managed to go to sleep (?) and while in this somnific condition to fall through an eighteen inch hole into the precincts of the aforesaid boxes, which he now found open. The negro found to his dismay, however, that while he had slept down through that hole he could not sleep up through it, try hard as he would. Some of the passers-by heard the frantic effo.ts of the now well-filled negro to get out and called the proprietor of the shebang to come and unlock the door, which he did. Three substantial and good citizens of the town, one of them a high official of the county, were standing by, and through curiosity, accompanied him to the room in which the negro was

The very fire-water itself was there in scores of pint and half pint bottles, filled and ready for the trade. A two bushel sack full of corks lay innoceatly in one corner. A large assembly of friends followed the remains to Elinwood Cemetery, where they were laid to rest. And, notwithstanding this great affiiction, Brother Hale felt that the interest here was so great that it was his duty to return to the harvest. O, how the earnest christian of this town should rally to his support and aid him by their presence, labor and prayers. And, how, too, should the wayward christian and the ungodly study their own lives and hearts and conditions and be interested for their own good, seeing that under such trying circumstances he is doing so much for them.
